

# OFFLINE ACTIVATION

If you need to activate a software license on a computer that has restricted Internet access or no Internet access, you can activate your software manually through our offline activation.

## Please follow the following steps:

### ON THE INSTALL COMPUTER:

- Open the software, activate the license management dialogue box (it should pop up automatically).
- Select “*Cloud-based License*”.
- Paste your product activation key and Select “*Activate the license offline*”.
- This will now display your computer ID – copy that key & transfer to a computer with internet connection.

### ON AN INTERNET-CONNECTED COMPUTER:

- Go to [www.softree.com/beta-test/offline-activation](http://www.softree.com/beta-test/offline-activation)
- Paste your computer ID, activation key, and type a name for your install computer (you decide this one).
- Press “*Get Computer Key*”.
- Copy and paste the Computer Key and transfer to your install computer.

### ON THE INSTALL COMPUTER

- Copy and paste the Computer Key into the License manager dialogue in the software.
- Press “*Activate*”.
